

ROTA SOFTY MATTRESS – THE NEW SOFT MATTRESS FOR BEDS

It's a new concept of mattress for beds consisting of a very soft base and a special covering cloth.

The base consists of a single mattress for every bed, with a specific density so as to combine the best softness with a high impact strength.

Thanks to its high resilience it models itself perfectly under the pressure of the animal's body and takes its shape again when the animal moves away.

The cover consists of a specially conceived single cloth representing the contact surface with the animal; it is acid- and shock-resistant, non-deformable, waterproof, with an easy-to-clean smooth surface and a low abrasive degree so as to reduce the friction lesions.

The new "Rota Softy-Mattress" assures the following main advantages:

- HIGH COMFORT IN TIME;*
- IMPROVEMENT OF THE PRODUCTION PERFORMANCE;*
- IMPROVEMENT OF THE PRODUCT QUALITY;*
- LONGER REST FOR ANIMALS;*
- LESS LESIONS;*
- SHOCK RESISTANCE;*
- DISINFECTABILITY;*
- REDUCTION OF THE OPERATING COSTS;*
- IMPROVEMENT OF THE WORK QUALITY;*
- POSSIBLE INSTALLATION ON BEDS OF WHATEVER SIZE, EITHER NEW OR RESTORED.*
